

Where is my GiveSmart Fundraise API information

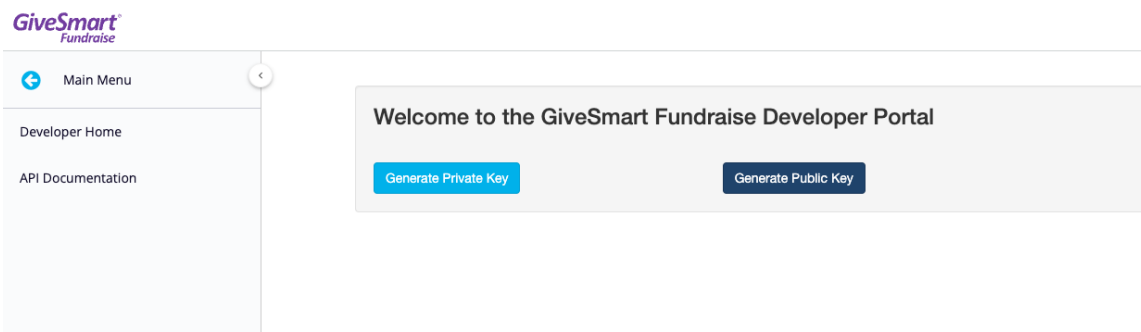

Last Modified on 02/09/2024 1:46 pm PST

When you click on the Support menu (the Question Mark) in the upper right, open Knowledge Center and then choose API Documentation, you open the information page for the GiveSmart Fundraise Application Programming Interface (API).

To create or retrieve your API Private Key:

1. Click on Developer Home

2. Click Generate Private key (If you don't already have a key)
3. Highlight the Key and paste it into whichever application you are connecting to your

GiveSmart Fundraise account.
